Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 11-15 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Hebblewhite et al (Fig. 1).

Applicant should note that the divider walls between the adjacent successive chambers each have curved portions and therefore satisfy applicant's claim limitation of the non-planar dividing wall means.

With respect to the water level being higher toward the outlet end of the apparatus, such would be an inherent result of pressurized gas flow through the apparatus from inlet toward outlet. Further the occurrence of an eddy within the gas stream would also be an inherent condition within the reference apparatus, dependent only upon the chosen gas pressure and velocity within the contact device.

Allowable Subject Matter

3. Claims 1-10 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 11-15 have been considered but are moot in view of the new ground of rejection. Applicant should note that the new grounds of rejection

Art Unit: 1724

were necessitated by applicant's amendments to the claims filed September 8, 2003 to which this Office action responds.

It is specifically noted that applicant has stated in his remarks portion of the amendment filed September 8, 2003, "that the required opening in the dividing wall (applicant actually said "sidewall" in error) may be immediately adjacent one of the sidewalls, in which case the dividing wall would extend only as far as the opening". This is precisely the structure as taught by Hebblewhite et al.

Conclusion

5. Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott Bushey whose telephone number is (571) 272-1153. The examiner can normally be reached on Monday-Thursday 6:30AM-5:00PM.
